“Cameron County Mails Out New Voter Registration Certificates.”

Brownsville, TX — The Cameron County Elections Department is pleased to announce that on February 25, 2026, a total of 222,036 new voter registration certificates were mailed to registered voters in Cameron County. Voter registration certificates are automatically renewed every two years, and updated certificates are issued to replace those that are expiring.

While Cameron County currently has over 238,000 registered voters, individuals who recently registered or who must reconfirm their residency will receive their new certificates in the coming weeks. The absence of a new certificate does not affect a voter’s eligibility to vote.

Cameron County Elections Administrator Remi Garza stated, “Individuals who were registered in Cameron County at the end of 2025 will be receiving the new orange certificates. These will replace the yellow certificates issued two years ago. Anyone whose registration was updated or who registered after December 31, 2025, will receive their new cards in the coming weeks.”

Voters are not required to present their voter registration certificate in order to vote. When voting in person, voters must present one of the seven acceptable forms of photo identification. Voters who do not possess an acceptable photo ID and cannot reasonably obtain one may present a supporting form of identification—which may include a valid voter registration certificate—and complete a Reasonable Impediment Declaration. This declaration affirms the voter’s identity and their reasonable impediment to obtaining acceptable photo identification. An election official will then verify the voter’s name against the official list of registered voters.
