

**BATCH 2**

**Q & A**

- 1) Is there a database we can get a copy of which lists all the voter registration index fields? Specifically, the VUID #, Last Name, First Name, Date of Birth? If available this would significantly reduce the cost of this project. An Excel spreadsheet is typically what we would receive for this purpose.

*A - For the voter registration list, you can use the Voter Export and edit it in Excel to remove the columns that are not needed.*

- 2) You list 8 different document types on page 8 of the Bid document. Do you need any document type indexing?

*A - No indexing required.*
