The MD&A should be considered in conjunction with the letter of transmittal, the accompanying basic financial statements and the accompanying notes to those financial statements.

OVERVIEW OF THE FINANCIAL STATEMENTS

The discussion and analysis is intended to serve as an introduction to the Park's basic financial statement. The Park's basic financial statements are comprised of: 1) Statement of Net Position, 2) Statement of Revenues, Expenses, and Changes in Net Position, 3) Statement of Cash Flows, and 4) Notes to the Financial Statements. This report also contains other supplementary information in addition to the basic financial statements.

Park's Basic Financial Statements

The <u>Basic Financial Statements</u> are designed to provide readers with a broad overview of the Park's finances in a manner similar to private sector business. They present the financial picture of the Park from an economic resources measurement focus using the accrual basis of accounting. These statements include all assets of the Park as well as all liabilities.

The <u>Statement of Net Position</u> presents information on all Park's assets and liabilities, with the difference between the two reported as *net position*. Increases or decreases in net position, contrasted with budgetary decisions, should serve as a useful indicator of whether the financial position of the Park is improving or deteriorating.

The <u>Statement of Revenues, Expenses and Changes in Net Position</u> presents information showing how net position changed during the most recent fiscal year using full accrual basis of accounting. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

The <u>Statement of Cash Flows</u> presents information on all Park's sources of cash and cash equivalents and the uses of cash and cash equivalents. Specific information about *Operating* cash flows, *Investing* cash flows, and *Financing* cash flows are presented along with information about material non-cash events.

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows.

A. Operations

Cameron County, Texas, (County) through its Park System, owns and operates 1) Isla Blanca Park located in the southernmost tip of South Padre Island, 2) Andy Bowie Park on the north end of South Padre Island, 3) Public Beach access road further north of Andy Bowie Park, 4) E. K. Atwood Park further north of Andy Bowie Park and Public Beaches on South Padre Island, 5) Adolph Thomae Park located in Arroyo City on the Arroyo Colorado, and eleven community parks located throughout Cameron County. The island parks provide transient and long-term rentals of trailer spaces and long-term leases of boat slips at the County's marina facilities. Additionally, the County has several concession leases with various food and entertainment establishments. Such concession leases generally require payment of a monthly lease amount and/or a fixed percentage of gross revenues.

B. Basis of Accounting

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, as prescribed by the Government Accounting Standards Board (GASB). For the year ended September 30, 2003, the Parks System of Cameron County, Texas adopted GASB Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis – for State and Local Governments (GASB 34) as amended by GASB Statement No. 37 and applied those standards on a retroactive basis. GASB Statement No. 34 establishes standards for external financial reporting for state and local governments and requires that resources be classified for accounting and reporting purposes into the following four net position categories:

Net investment in capital assets: Capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction or improvement of those assets.

Restricted:

Nonexpendable – Net position subject to externally imposed stipulations that the Park System maintains them permanently. For the fiscal year end 2018 and 2017, the Park System does not have nonexpendable net position.

Expendable – Net position whose use by the Park System is subject to externally imposed stipulations that can be fulfilled by actions of the Park System pursuant to those stipulations or that expire by the passage of time.

Unrestricted: Net position that is not subject to externally imposed stipulations.

Note 1 – SUMMARY OF ACCOUNTING POLICIES (continued)

B. Basis of Accounting (continued)

The accompanying financial statements have been prepared on the accrual basis. The Park System reports as a Business Type Activity, as defined by GASB Statement No. 34. Business Type Activities are those that are financed in whole or in part by fees charged to external parties for goods and services.

The provisions of GASB Statement No. 75 have been applied as of fiscal year ended September 30, 2018. GASB 75 created accounting standards for Other Post Employment Benefits (OPEB) provided by governmental entities separately from a pension plan. This Statement establishes standards for measurement, recognition and display of OPEB expenditures and related liabilities/assets disclosure.

C. Capital Assets and Depreciation

Purchased assets are recorded at historical cost. Depreciation is provided over the estimated useful lives on a straight-line basis over the following estimated useful lives:

ASSETS	YEARS
Buildings	40
Furniture and Fixtures	5
General Equipment	5
Vehicles	5
Computer hardware	3
Infrastructure	30

Depreciation expense for all activities totaled \$1,085,018.

D. Retirement Plan

All employees who work in excess of 900 hours per year are members of the Texas County and District Retirement System under which the employees contribute 7% and the Park System contributes 8.76% of the qualified employees' earnings. Retirement plan expense is funded as accrued, and includes amortization of prior service cost over a 20-year period. Information concerning the actuarially computed value of vested benefits is not available. Retirement plan expense for the year ended September 30, 2018 totaled \$126,083.

E. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

F. Cash and Cash Equivalents

For purposes of the statement of cash flows, the Park System considers cash on hand and deposits at banks as well as all highly liquid investments purchased with a maturity of three (3) months or less or with no stated maturity to be cash equivalents.

Note 1 – SUMMARY OF ACCOUNTING POLICIES (continued)

G. Net Position

Net Position represents the residual interest in the Park System's assets after liabilities are deducted and consist of three sections: Invested in capital assets, net of related debt, Restricted and Unrestricted. Net investment in capital assets includes capital assets, restricted and unrestricted, net of accumulated depreciation, reduced by outstanding debt. Net position is reported as restricted when constraints are imposed by third parties or enabling legislation. The Park System's restricted assets are expendable. All other net position is unrestricted.

H. Comparative Data/Reclassifications

Comparative total data for the prior year have been presented in the accompanying financial statements in order to provide an understanding of the changes in the system's financial position and operations. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

I. Subsequent Events

Management has evaluated subsequent events through the date the financial statements were available to be issued.

Note 2 - BOND INDENTURE REQUIREMENTS

During the period in which the bonds are outstanding, the Park System Bond Order requires the County to create and maintain a Debt Service Reserve Fund to be funded (i) out of proceeds of Park System obligations which are secured by a parity pledge on the net revenues, as defined in the Bond Order of the Park System, (ii) from periodic deposits of net revenues, or (iii) from other funds of the County which are lawfully available for such purpose. The County is obligated by the Bond Order to maintain an amount on deposit in the Debt Service Fund equal to the average annual debt service for all Park System obligations, as defined in the Bond Order.

The Bond Order also obligates the County to fund an Operating Reserve Fund in the amount of \$1,635,000. The Operating Reserve will be used to pay items of extraordinary maintenance or extraordinary repairs and replacements of the Park System and minor capital improvements to the Park System. Amounts on deposit in the Operating Reserve may be used to pay debt service on Park Obligations in the event that amounts on deposit in the respective interest and sinking fund and the Debt Service Reserve are insufficient for such purpose.

Monies held as restricted assets in the fund established by the revenue bond indenture are invested in securities guaranteed by the U. S. Government. At September 30, 2018, the County's depository had pledged sufficient U.S. Government obligations to meet this requirement.

Note 4 - COMPENSATED ABSENCES

The Cameron County Personnel Policy provides employees with vacation leave and non-vesting accumulating rights to sick pay benefits. The policy requires all employees to take vacation time prior to the end of each fiscal year; however, it allows vacation carryover for three months. Vacation pay is recognized as a part of salary compensation. Salary and wages earned, yet unpaid is recognized as accrued compensation time. Although sick leave does not vest and unused balances are not paid at the time of employee termination, current employees can accrue up to sixty days of paid sick leave. The System is reserving \$47,131 to recognize the earned, yet uncompensated leave accumulated as of fiscal year-end.

Note 5 - NET PENSION LIABILITY

Governmental Accounting Standards Board issued Statement No. 68 which are new reporting standards for public pension plans and participating employers which address specifics of reporting public pension plan obligations for employers. Net pension liability (NPL) for Cameron County was determined on an actuarial valuation as of the valuation date. The Park System recognized pension expense costs of (\$46,291) as a result of this implementation.

Note 6 - CASH AND INVESTMENT

Custodial Credit Risk-Deposits:

Park System deposits at year-end were covered either by Federal depository insurance or collateral held by the Cameron County Treasurer in the Park System's name. Cameron County adopted an investment policy in January 1997, which reinforces the County's investment practices of remaining in compliance with V.T.C.A, Title 10, Government Code, Section 2256.

Concentration Risk:

Cameron County has investments with Lone Star, an investment pool sponsored by the Texas Association of School Boards. It is policy that the County may not invest more than 65% of available cash with no more than 35% of available cash balances invested in any one investment pool. Due to interest rates these pools were not used other than minimum amounts to hold open the accounts.

As of September 30, 2018, the Park System's carrying amount of deposits and investments was \$26,617,515 and the bank balance was \$26,602,407.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable County Judge and Commissioners' Court Cameron County, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of the Cameron County Park System, as of and for the year ended September 30, 2018, and the related notes to the financial statements, and have issued our report thereon dated March 28, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Cameron County Park System's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Cameron County Park System's internal control. Accordingly, we do not express an opinion on the effectiveness of the Cameron County Park System's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Cameron County Park System's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions

of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
