

Batch 2 FOLLOW UP Q & A
RFP #1452A3

Collection, Characterization, Packaging, Transportation and Disposal of Hazardous Waste During Post-Hurricane-Disaster Recovery Operations

1. Will you confirm that we are to reprint the attached RFP document as was issued by Cameron County and include it in all 8 copies of our response?

A- *Only include in the Original set being submitted - not necessary to include in all of the other sets.*

I have a question about the format of response for RFP 1452A3 for Cameron County – “Collection, Characterization, Packaging, Transportation, and Disposal of Hazardous Waste During Post-Hurricane/Disaster Recovery Operations”.

Page 12 is titled “Proposal Response Format”, and the instructions indicate we should follow the format provided, using numbered tabs for each section. The outline then runs through page 16, with three main categories: Letter of Transmittal and Affidavit, Mandatory Qualification and Contracting Criteria, and Project Requirements, with several more detailed headings within each category.

But then beginning on page 23, there is another outline titled “Response Information Required”. And on page 25, there is a third outline of the response format.

Are pages 23 and 25 relevant to this response, if we’ve already followed the format in pages 12-16?

A- Yes pages. 23 and 25 are relevant to this response.

Or are we to incorporate the formats and questions on pages 23 and 25 into the outline provided in pages 12-16?

A – *Yes please incorporate (pages 23 & 25) in your response*

Insert (pg. 25 – Executive Summary) in the following order (initial pages of your RFP response & tab each) :

- *RFP Signed cover page*
- *Cover letter*
- *Executive Summary*

Description of Services (pg. 23) should be included in Section 2 Project Approach (pg. 15).
