

QUESTIONS & ANSWERS - BATCH 1
SANTA ROSA PLAYGROUND EQUIPMENT
BID # 220703

1. Is this a turnkey project

Yes, the project is turn key

2. Playground can be same or equal to?

Playground must meet specifications laid out in the RFP (e.g. warranties, material grades, etc

3. Is there an engineer involved that needs to approve our blue prints and specs of equipment?

An engineer will not review or approve the design for the vendor. This process needs to be performed by the manufacturer of the equipment;

4. Surfacing will be EWF wood fiber and 12" plastic borders with half Ada ramp?

- *Surfacing will NOT be EWF. Specs clearly state surfacing will be synthetic turf;*
- *Plastic borders are also NOT listed in the specs. Specs list concrete ribbon curb as the containment structure for the synthetic turf and a concrete ADA ramp.*

Please note: Do not confuse the pictures of the existing playground (included as backup in the RFP) which must be included in the proposal for demolition. The RFP also states that the County wishes to have the existing playground credited towards the project through a buyback program, if that indeed is something the vendor offers.
