2.- Please correct technical specifications on original bid package, page 12 of 53, section 16. Lime TREATMENT (ROAD – MIXED) – HYDRATED LIME

ORIGINAL:

16. LIME TREATMENT (ROAD – MIXED)

HYDRATED LIME - DRY

1.1 This item shall govern for treating the new or existing sub-grade or base (with or without ACP) by pulverizing, adding lime, mixing and compacting the mixed material as specified per TX Dot Item 260

1.2 **Hydrated Lime-Dry** shall be furnished in 50-pound bags, each bag shall bear the manufacturer’s certified weight. Bags varying more than five (5) percent from the specified weight may be rejected and the average weight of the bags in any shipment, by weighing 10 bags at random, shall not be less than the manufacturer’s certified weight. The Bids for Hydrated Lime Dry will be evaluated and awarded on the basis of the lowest price per 50-pound bag. When lime is furnished in trucks, the weight of lime will be determined on certified scales. Scales shall conform to TXDOT item 520, “Weighing and Measuring Equipment”. Hydrated lime Dry delivered by truck will be measured by the ton (dry weight)

HYDRATED LIME – ~~SLURRY~~ TYPE B COMMERCIAL LIME SLURRY

1.1 This item shall govern for treating the new or existing sub-grade or base (with or without ACP) by pulverizing, adding lime, mixing and compacting the mixed material as specified per TX Dot Item 260

1.2 **Hydrated Lime-Slurry** shall be delivered by truck / trailer method to the job site as directed by the County Engineer or Public Works Department Superintendent. Use slurry tanks equipped with agitation devices to slurry hydrate lime to the project site. Provide a pump for agitating the slurry when the distributor truck is not equipped with an agitator. The Bids for Hydrated Lime Slurry shall be evaluated and awarded on the basis of the lowest price per ton (dry weight) of the hydrated lime used to prepare the slurry at the job site.
